Subject: Action likely in the next few hours on Redwood City Salt Plant Site

Tom, Travis, John,

Unless we get confirmation in the next hour that it is unnecessary, Jared Blumenfeld will be sending a memo to me seeking my approval to place the CWA jurisdictional determination for the Cargill/Redwood City site along the south end of San Francisco Bay on the Reg 9 Special Case list. If I were to approve Jared's request, EPA would make the final CWA jurisdictional determination instead of the Corps. Reg 9 will be providing comms materials to you for responding to any media inquiries and can answer any questions you may have about this situation. Thanks

Nancy
